STATE GUARD UNIT HAS FIRST RIFLE DRILL

PLAN FOR PUBLIC BENEFIT DANCE IS EAGERLY RECEIVED

CENTERVILLE — The eighth night of drill for the provisional Washington Township State Guard Rifle company was held here Monday night October 27 in the high school gymnasium with 25 men on the floor and Corporal James Collins and Private First Class Jess Johnston, both of Newark, in charge of the drill.

The two Oakland Guardsmen brought their rifles with them and gave the recruits their first instruction in the manual of arms.

At the conclusion of the two hour drill period, Walter Waynflete, chairman of the Legion's State Guard committee called the roll as usual and told the men about the public dance proposed by the Legion Post as a benefit for the Guard unit. The men took hold of the idea enthusiastically and will undertake the public sale of tickets as soon as a hall and a date can be secured.

Changes in the company roster which occurred Monday night: new recruits signed up: Eugene Ramsell, Centerville; George F. King, Niles RFD.

Relieved from duty because of night work, (but not resigned), Hugh Steinhoff, Centerville.

Dropped from rolls for missing five drills in a row: Zidero A. Silva, Newark RFD; four drills in a row: John Machado, Jr., Centerville; absent five drill nights out of six: William T. Elias, Centerville.

Active names remaining on roster: 28. Weekly reports of attendance, type of drill, etc. are now being sent by Waynflete to Sacramento by request of the Adjutant-General. Fourteen thousand men have been enlisted in the Guard throughout the state, and the goal of 25,000 men will be reached by January, state authorities hope.

Fifty more volunteers are urgently needed to complete the Township Guard company before it can be mustered in, Waynflete says.

COUNTY JOBS OPEN

OAKLAND — The Alameda County Civil Service commission will receive applications up to November 21 for the position of Deputy Coronor which pays $185 per month. The commission, up to the same date, will also receive applications for the position of part-time recreation director, men only, at a starting salary of $50 per month. Full information may be obtained from room 205, courthouse.

MORE FIRE UNITS

The County Board of Supervisors at their meeting last week approved the proposal of Southern County Fire Departments to purchase and equip for additional pieces of fire fighting apparatus for use in combatting rural fires. The project has been sponsored by a dozen civic organizations as well as by all the volunteer departments concerned. The new protection will result in a reduction of insurance rates, according to report.

MEN MAY APPLY HERE FOR NAVY INFORMATION

At the suggestion of Secretary of Navy Knox, Walter Waynflete, editor of The Township Register has been made Navy Editor, to help the Navy in giving ambitious local young men information about the opportunities the "Two-Ocean" Navy offers them for technical training and advancement as they serve their country in its emergency.

According to an anouncement made public in Washington, a limited number of additional men between the ages of 17 and 50 will be given a chance, by enlistment in the Navy or Naval Reserve, to get to the top with big pay, in jobs which by their aptitude and as a result of examination they show themselves fitted, from among nearly 50 different trades and vocations. These include such callings as aviation machinist, dental technician, photographer, diesel engineer, radio technician, electrician, welder, storekeeper, and baker. Enlisted men may also qualify for commissions as officers.

Beginning this week, the Navy plans for a limited time to accept new qualified men for training. These men will be sent to one of four Naval Training stations and may have a chance to go to a navy trade school even before assignment to the fleet. During this period they will be given regular Navy pay and the Navy's free schooling is valued at hundreds of dollars.

— Build For Future

"Never in the history of the United States has there been greater opportunity for loyal young Americans to serve their country and build their futures than right now" said Secretary Knox.

In outlining the many advantages offered by enlistment in the United States Navy, Navy Editor Waynflete said, "It is possible for a bright young man to increase his pay seven times during his first enlistment and he can earn as much as $126 a month. This monthly figure is actually worth much more when it is remembered that the man has few living expenses and is provided with the finest medical and dental care.

— See The World

"You have all your food and lodging, and also your orginial outfit of clothing provided by Uncle Sam free, in addition there are free sports and entertainment — even to the latest Hollywood pictures. On top of this you get free travel and adventure in colorful places — a thing few civilians can afford.

"Navy men are a 'hand-picked' lot. Candidates must be men of more than average intelligence and ambition, of fine moral character and must have the written recommendation of at least two local townspeople."

The Township Register has just received from Washington a supply of free illustrated booklets for all men interested and, in addition, will welcome inquiries from young men who wish to look into the new and greater opportunities the navy now offers for training for future civilian careers as they serve their country now in its emergency.

MINSTREL SHOW

CENTERVILLE — Rehearsals for the Washington Township Community Players first minstrel show to be presented on November 25 are being held each Tuesday and Thursday evening in the high school auditorium from 7 to 9 o'clock with M. C. Thiltgen directing. Many of the local "wits" of the Township are participating in this forthcoming fun-fest.

COUNTY PAYS ITS SHARE OF FLOOD DRAINAGE PROJECT

STATE REPORTED READY TO BEGIN CONSTRUCTION OF NILES IMPROVEMENT

The county board of supervisors has paid the state highway department the sum of $32,000 to build the former's share of the flood control project which will carry drainage water through Niles from State Highway 17, under the Southern Pacific tracks and along H street, to be dumped into Alameda Creek.

This good news from Supervisor George Hellwig was brought to the Monday luncheon meeting of the Niles Chamber of Commerce at the City of Florence Restaurant by Secretary A. J. Petsche who said work was due to begin within ten days. Rights of way have been purchased through two pieces of private property, it was reported.

The moderatedly heavy rain of Sunday night put some water in the Sullavan Underpass but did not stop traffic, it was reported. Road Foreman J. D. Gomes is having a new pumping unit installed on a county truck whose duty it will be to keep the underpass clear of water during the winter months, it was reported.

An FHA man from San Francisco was in Niles Friday interviewing Mr. Petsche, manager of the Niles office of the P. G. & E., Robert Blacow, manager of the Niles branch of the Central Bank, and E. A. Ellsworth, local real estate broker, with reference to the Township's housing needs for workers in defense industries. It was the official's conclusion that Niles, Centerville and Newark, as the principal industrial centers of the Township, should definitely be placed in the Bay defense area.

Walter Waynflete requested that the secretary be instructed to write a letter to the state highway department asking that repairs be made to a soft spot in main highway 17 opposite the Tidewater Associated's plant where a car skidded and turned over after the first rains last week, injuring its driver and his two children. Wash waters from the canyon behind Rose and Berber's Service Station have damaged the condition of the north side of the highway at this point. The letter was ordered written.

Waynflete also made mention of the intense Naval recruiting crusade which starts in this Township this week, and spoke of the local Legion Post's plan to hold a public patriotic rally in the auditorium of the Memorial building on a date in November, to stimulate the purchase by the public of defense bonds, and to stimulate naval recruiting in this area. He also offered "V" for Victory window stickers for sale as a benefit to the Hayward chapter of the Britishr War Relief.

Mr. Grau of Omaha, Nebraska was welcomed as a guest of his son, Dr. E. C. Grau at the meeting.

Vice President E. E. Dias presided in the absence of President T. C. Wilson — who was probably drilling for gold in his office.

NEW HOMES NOW BEING BUILT IN CANYON HEIGHTS

TWENTY LOTS SOLD IN EXCLUSIVE NILES CANYON SUBDIVISION

Business is booming in the Canyon Heights Development near Niles, notwithstanding priorities and FHA restrictions, according to A. L. Bailey, co-developer of the attractive building area, with Eric Stenhammer.

Construction of another new home began Monday, two more are to start the end of this week, so that three houses will be in course of construction there by next Monday with one partly completed. Applications for approval of four more homes in the tract are now before the FHA, with four more applications to be placed before them as soon as possible.

The contractor, Frank Garcia has himself bought eight lots, and was astute enough to purchase and set aside all the lumber, plumbing, fixtures, wiring, finish hardware etc. before priorities went into effect.

William C. Shields, secretary of Crockett's new chamber of commerce, who is also an ardent Rotarian, has also purchased eight lots. A total of 20 lots have been sold in the tract since summer, leaving only 13 lots remaining to be had in this tract, which an FHA official has on several occasions said was "the most wonderful tract he had seen so close to populous communities.

The homes to be built there by Shields, Garcia and another contractor, George W. Womack are all designed for sale or rental and will prove available for the use of future defense workers.

E. H. Frick, prominent Niles businessman, who has been going back and forth daily to his home in Newark, has bought the house built by Dick Attinger, and plans to move there to reside. Frick has the plumbing contracts for most of the new homes in this tract.

Water and electricity have been provided throughout the tract, which promises to become one of the most exclusive and unique of the several Township residential developments.

A deal was closed this week whereby Henry Miller, Niles and Centerville dry cleaners and his wife have purchased one of the most attractive lots in the tract, where Miller will have Contractor E. E. Dias construct a modern home for the Miller's occupancy.

Mr. Ellison, an appraiser for the FHA expressed his personal opinion about as follows regarding Canyon Heights; Men you have a hidden gold mine here, one of the finest view tracts and one of the healthiest places to live anywhere.

Mr. Bunce, Bank of America, Hayward; Quote: This is one of the most beautiful tracts I have ever seen.

Washington township will soon be proud of this tract as the new buildings will soon add to Township income and the many restrictions on this property insure a good class of residents for Niles.

GOOD WALNUT PRICE

Local evidence that farmers are receiving better returns for their crops was brought to this office last week when L. R. Dray, Niles grower said his small crop of walnuts had been graded 90 per cent good and 90 per cent large, and he had received 18.8c per pound for them. So one now sees first grade bleached walnuts retailing at local grocery stores for 30c and 35c per lb., attractively packaged. (It's an ill wind . . which blows no nuts down!)

U. S. IS PARTLY RESPONSIBLE FOR WORLD HOLACAUST

DR. KERNER PRESENTS POSTULATES FOR FUTURE WORLD PEACE

CENTERVILLE — Speaking before a large audience at the public forum in the high school auditorium here Monday night Dr. Robert Kerner of the state university proposed a delightful method of disposing of the nazis after the war is won.

Said he: drive all the remaining nazis back into Germany; ring the nation with ranks of the victorious Allied armies, then give weapons to the real German people who have been bedevilled by the Gestapo for the past decade . . and the Germans themselves will "liquidate" the nazis without any help from the Czecks, the Poles or the Yugo-Slavs.

Before the last war ended he said he was in Europe as a technical adviser to the Wilson administration. Immediately after the Armistice he said he pleaded with various governmental authorities to stage a giant victory parade of Allied troops down Unter Den Linden in Berlin to let the German people know they had been conquered. (The last war, as everyone knows, never got onto German soil so the German countryside was never despoiled by war and the rank and file of German citizens were never shown they had been conquered.)

— Blame Ourselves

The authorities of those days brushed aside the doctor's suggestion as vain-glorious and an unnecessary expense . . so through the later years the Germans pulled themselves together for another onslaught against civilization, using the now-too-liberal Versailles Treaty as an excuse to cloak their supposed injuries . . and we have ourselves to thank today for this resurgence of nazi-inspired Germanic venom.

When this war is won, at a present cost to the United States of a hundred BILLION dollars, we will have the largest stake in the future peace, and this time no leniency can be shown by the conquerers to the conquered.

The next Germany will have to be split up into small states, administered by a central government under Americo - British supervision. There is no future room now for our former policy of "let us be fair." Let us be severe instead and administer a spanking to the German people right at the seat of their future government.

He said that Japan, by taking a suicidal jump into war at this time will land up at the bottom of the heap and temporarily will end up as a worse vassal of the nazis than Italy now is.

— Dismal Picture

Elaborating on the subject: What Kind of a Peace can we Expect if Hitler Wins? he painted a dismal picture of but ONE master race taking entire control of all nations and making serfs of all non-Aryans; making trade promises to South America, only to break the promises and conquer South America when it suited them; of "buying" control of banks, railroads and industries by paying 2c on the dollar with reichmarks, not worth a dime a carload, etc. etc.

To prevent this destruction of national freedom the United States is about to go to war. In the last war we took up arms to defeat

PUBLIC INVITED TO ART EXHIBIT AT COUNTRY CLUB

OUTSTANDING EVENT SCHEDULED FOR NEXT TUESDAY AT CENTERVILLE

CENTERVILLE — Final plans for the Art Exhibit of the Country Club of Washington Township are rounding out into what promises to be an outstanding occasion. In fact, after having extended invitations to all Township organizations to attend its evening reception, interest has grown to such an extent that the club women are now opening the doors to the public to attend in the evening.

Under the general chairmanship of Mrs. Roland Bendel a full day is scheduled. Between 11 and 12 next Tuesday, November 4 school students will attend a preview of the exhibits. At one o'clock the clubhouse will open for club members and guests. Regular business meeting will be at two, after which a program of music and an art speaker will be heard. Special guests from Federation circles for this afternoon meeting will be Mrs. Wm. G. Foster, State Federation Art chairman, Mrs. George Messing and Mrs. Powell — Davis, County Art chairmen, Mrs. Ray Foster Love of Berkeley, who visited the National Art Museum at Washington, D. C. this summer, and Mrs. H. G. Conn, county chairman of arts and crafts. Mrs. Foster will be the speaker. Miss Lorraine Collins, violinist, will bring the music.

In the evening the club is holding open house from 8 to 10 to the public and the exhibitors. Guests will be received by Mrs. Loren G. Marriott, president of the club, Mrs. E. C. Grau and Miss Phoebe Ormsby, Township representatives of the American Artists Professional League. Assistant hostesses will be Mesdames Bendel, Frank Dusterberry, C. E. Martenstein, A. J. Rathbone, E. A. Ellsworth, Gladys Williamson and Miss Grace Knoles.

For the exhibit Mrs. Grau has secured the paintings of the following outstanding bay area artists: Chas. Orton of Oakland; Will Fratas, Elmer Stanhope, Hidalgo and Matsusaburo Hibi, Eliza-

CHRISTIAN SCIENCE CHURCHES

"Probation After Death" was the subject of the Lesson-Sermon Sunday, October 26, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. The Golden Text was: "Take heed, brethern, lest there be in any of you an evil heart of unbelief, in departing from the living God. But exhort one another daily, while it is called To day," (Hebrews 3: 12, 13).

Other Bible citations included: "Judge me, O Lord; for I have walked in mine integrity: I have trusted also in the Lord; therefore I shall not slide. Examine me, O Lord, and prove me; try my reins and my heart," (Ps. 26: 1, 2).

George Butler, Newark merchant, held a duck dinner Tuesday evening at Butler's Hotel in honor of the Newark Sportsmens Bowling team. The Bowling team won the championship this year in the 775 League at Hayward.

The Washington Chapter had an exhibit at the high school here last week featuring increased production of food as their contribution to national defense.

NATIONAL LIVESTOCK EXPOSITION TO OPEN IN SAN FRANCISCO

SAN FRANCISCO — The Grand National Livestock Exposition — Cream of the livestock world's show herds.

A horse show of national caliber.

A rodeo with the country's top ranking performers competing.

Cash premiums and awards of than $72,000.

Add to all these, glittering arena entertainment and you have this inaugural national livestock exposition, to be held in San Francisco's new $2,500,000 "Cow Palace" from November 15-22.

And while everyone agrees that it will be a great show, a deeper signfiicance is attached to the exposition. This has to do with the world's desperate need for more meats, dairy products and fats.

George N. Keyston, president of No. 1-A District Agricultural Association the State of California agency sponsoring the exposition, declared today that the Grand National will play a "vital part" in the government's nation - wide campaign to produce less cotton and wheat and more livestock.

"Secretary of Agriculture Wickard has said that food will win this war and write the peace," said Keyston. "The Secretary's program assumes gargantuan proportions when we realize that he has asked the nation's farmers to increase their 1942 production of beef, dairy products, pork and lard all the way from 11 to 15 per cent.

"The livestock man has two ways in which to increase his production," Keyston continued. "He may breed, buy or feed more animals, or he may increase the quality of his herd. The latter is by far the most economical and beneficial manner of insuring this increase."

ENJOY PICTURE

NEWARK — Big Game Hunting Pictures were shown on Thursday evening November 23 at Newark School School auditorium. A large turnout was present. These pictures were shown by Bill Foster, famous big game hunter of Rio Vista. Various animals in the Canadian wilds were shown. A picture entitled "Shooting Geese in California" made last season at the Kuhl Gun Club near Maxwell was also shown.

FIRST WOMAN BORN IN COUNTY DIES IN CHICO

MISSION SAN JOSE — Mrs Catherine Murray, 94, born here in May, 1847, said to have been the first white woman born in Alameda county, succumbed in Chico last Friday, according to word received here.

A daughter of Jeremiah Fallon, county pioneer, she was raised on the renowned Fallon ranch, which formerly included the town site of Dublin.

The site of the Dublin school, and the church where the last rites were held Thursday morning of last week, were both given to the town of Dublin by the Fallon descendants. Murray Township derived its name from Mrs. Murray's family.

Her parents, Jeremiah and Eleanor Fallon left St. Louis on March 1, 1864, came west with an emigrant train of 300 wagons, reaching Sutter's Fort, (now Sacramento) on October 1. They moved to the Mission that month. Her father was a member of the rescue party which went out in search of the ill-fated Donner party.

She had lived in Oakland for 60 days, spending the last 10 years of her life with a daughter, Mrs. Ellen Crowder ,in Chico.

Survivors beside Mrs. Crowder include another daughter, Mrs. Louise Faro of Oakland, a son, Roger Murray of Chico, 10 grandchildren and four great grandchildren.

KNIFE WIELDER BOUND OVER TO SUPERIOR COURT

Gathel Messer of Mission San Jose was bound over to the superior court last Friday afternoon following his arraignment in Niles Justice Court before Judge J. A. Silva. He is charged with the murder of Edward J. Callahan, 18, of the same town following a coroner's jury's findings at Irvington last week.

After the inquest was held the jury returned a verdict that Callahan came to his death from stab wounds "evidently inflicted by Gathel Messer." The jury under the foremanship of Allen R. Hirsch debated 30 minutes after hearing the testimony of four witnesses.

FARM HOME MEETING

NEWARK — The Newark Farm Department held their regular meeting last week at the home of Mrse. J. M. Guilfoyle in Newark. The project of the day was Nutritrition and Vitamins. The project was conducted by Mrs. Maryetta Holeman, Home Demonstration Agent of Hayward. The business meeting was conducted by the chairman, Mrs. Geneva Smith of Decoto. Refreshments followed the business meeting and the project. The Department will hold their next regular meeting November 28 at the home of Mrs. Lenda Kraft in Newark.

FARM INCOME GAINS

SAN FRANCISCO — California farm income during the first seven months of 1941 aggregated $39,963,000, a gain of 19 per cent over the corresponding 1940 period, according to the current issue of "The Business Outlook". Of the total, receipts from crops ($233,115,000) were up 23 per cent and from livestock and livestock products (($150,896,000) were up 18 per cent, but government benefit payments ($11,952,000) were 21 per cent lower.

COLUMNIST TO ADDRESS FORUM NEXT MONDAY EVE

CENTERVILLE — Raymond Lawrence, Foreign Editor, of the Oakland Tribune will speak to the Washington Township Forum next Monday evening on the vital topic: "What's Right and What's Wrong With Our Defense Program."

Mr. Lawrence is the writer of the interesting and widely read column "Propaganda and Politics." His analysi sof current developments is most accurate and stimulating. He is especially qualified as a forum speaker as he is a trained political scientist as well as a practical newspaper man.

It is expected that Mr. Lawrence will be able to suggest answers for the following questions which we are all asking:

Is our organization for defense adequate? Should we prohibit strikes in defense industries? Are we really getting into production? How may me speed production? Do we need a mass army? What's wrong with our morale? Is our foreign policy conducive to our defense? What changes in foreign policy would facilitate our defense?

Everyone is cordially invited to hear Raymond Lawrence discuss these vital issues next Monday evening, at 8 p. m. in the high school auditorium.

BOARD DISTRIBUTES COUNTY'S SHARE OF LIQUOR FEES

SACRAMENTO — Distribution to California cities and counties of $1.583.490 as their share of alcoholic beverage licensee fees earned during the first half of 1941, was announced today by Fred E. Stewart, second district member of the State Board of Equalization.

The allocation represents one-half of the $3,166,980 earned by the board during the six-month period ended June 30. The state's share goes into the general fund.

Of the total to be distributed in Alameda county, $7,061 will go to the unincorporated area, while $117,354 has ben alocated to the entire county on the basis of actual licenses issued.

Stewart pointed out that with the current allocation cities and counties thro ughout the state have received, since the repeal of prohibition, a total of $19,371,754. This huge sum has been collected and distributed by the board at no cost to the local governmental units.

EXCISE TAXES NOT SO BAD ON NEW CARS

Pointing out that many motorists are still of the mistaken belief that the Federal excise tax which went into effect on October 1 is prohibitive in nature, Dick Attinger of Attinger & Underwood revealed this week that the average rise in price on a 1942 Pontiac due to the added tax is a trifle less than $30.

The local dealer said that whereas the public had anticipated cash increases ranging from $75 to $150 per car, the Pontiac taxes run from $27 to $32. Because of Pontiac's price position in the middle of the field, these figures can be taken as a reasonable average for the entire industry, he declared.

SEASON NOW OPEN FOR "B'AR" HUNTERS

(Special to the Register)

SAN FRANCISCO — The bear season opened throughout California on October 15, except in Fish and Game Districts 4, 4 1/8 and 4 3/4 where hunting of bear is not permitted.

For those hunters who go in for this vigorous sport, wardens of the Division of Fish and Game report bear tracks have been seen in the vicinity of Wiseman Spring and Rogers Ridge, Fresno County. Judging by signs, good hunting should be had around Downieville, and in Calaveras County, particularly near Murphys.

Bear may be found in the High Sierra counties and the north coast counties of Del Norte, Humboldt and Mendocino.

Hunters will also encounter bear in Siskiyou and Trinity counties.

The limit on bear is two per season, and they may be taken with gun, bow and arrow or trap. The season closes December 31.

NEWARK FIREMEN PLAN BANQUET ARMISTICE DRILL

NEWARK — The Newark Fire Department held their regular meeting Monday evening at the fire house with Henry Fields presiding. Plans were made for an Armistice banquet to be held Monday evening, November 10 for the members of the department and their Ladies Auxiliary.

Chief Pashote announced that on Armistice Day, November 11 at ten o'clock in the morning there will be a drill contest between two companies of the Fire Department. The public is cordially invited to attend.

It was also stressed at their meeting that the Newark firemen were strongly opposed to the purchase of a fire truck for Alameda County to be stationed in Hayward.

FARM CENTER ELECTS OFFICERS; ENJOYS PROGRAM

CENTERVILLE — Members of the Eden-Washington Farm Center enjoyed a banquet and business meeting Wednesday evening in the high school cafeteria here with James M. Nunes, director serving as toastmaster. Following the business meeting new officers were elected and the group then enjoyed old fashioned dancing and a chamarita to the music of Fred Mitte and his Haywire orchestra, and Portuguese folk dances.

A speaker from the University of California Extension Service delivered the address of the evening.

HOTELS NOW AID IN OFFERING DEFENSE STAMPS

WASHINGTON, D. C. — Distribution of three billion posters and folders to 6,000 hotels promoting the sale of Defense Savings Bonds and stamps has been started by the Treasury Department in cooperation with the American Hotel Association.

Practically every hotel of prominence in the United States, ranging in capacity from 3,000 to less than 25 rooms has been asked to provide a supply of Defense Savings Stamps for the convenience of guests. The hotels are participating in the Treasury Department's Program under direction of Thomas D. Green, Executive Director of the Association, with headquarters at 221 West 57th street, New York.

JAPANESE GROUP ENTERTAINS FOR TOWNSHIP PRESS

A dozen officers and members of the Washington Chapter, Japanese-American Citizenship League entertained newspaper folks of the Township at a sumptuous dinner served Tuesday evening in the International Kitchen at Niles.

President James Hirabayashi introduced Mrs. Gladys Williamson, Township representative of the Oakland Tribune, George Oakes, publisher of The Alvarado Pioneer, Miles Smith, publisher of the Washington News and Walter Waynflete, publisher of The Township Register. Each guest said a few words of greeting and offered the resources of the local press to assist the Japanese in furthering their civic and association projects.

The local chapter is one of the 54 chapters in the national association flourishing in eight western states with headquarters in San Francisco. With only 150 American-born Japenese young men and women over 18 years of age residing in this Township, the local chapter is to be congratulated on its membership jumping from 75 members last year to 150 members this year.

— Aid Civic Drives

Mention was made of their annual assistance given both the Boy Scout and Red Cross drives in Washington Township, and that 12 former members of their group are now serving as volunteers and draftees in the United States Armed forces.

Informal discussion was held on the furtherance of cordial Japanese and American relations and the newspaper people were surprised to be told that the instruction given in Japanese language schools throughout the state was based on textbooks approved by the state board of education and covered the same subjects as Englated into Japanese.

The dozen officers of the group stated they spoke Japanese with difficulty, could read and write but little of it, and expected that in another generation the use of the language would probably be lost among Japanese decendents in this country.

The older generation, Japanese-born people who had lived in this country most of their lives had no wish to return to their homeland, but had come to love America and its freedom. Younger, American-born Japanese who returned to Japan to visit were not now accepted by the native Japanese, who regarded the former as outlanders. California Japanese who have returned from visits to Japan invariably disliked the close police surveillance which was exercised over their movements while in Japan, and were always glad to return to the freedom of the United States.

— Coming Events

Future activities of the local chapter include a joint meeting with the Mt. Eden chapter at an early date, probably at the high school, when Sheriff "Jack" Gleason will be received to tell them how they can assist in local civilian defense activities

The board of governors will entertain the fire chiefs of the Township at their November meeting; and the next general meeting of the chapter will feature their anniversary party, celebrating their seventh year of activity, with election of officers taking place for 1942.

Officers present Tuesday, in addition to President Hirobayashi were Vice President Vernon Ichisaka, Recording Secretary Nora Sakaki; corresponding secretary Yoshimi Kawaguchi; Treasurer Dr. Harry Sakata, and Governors Harry Konda, Nobura Hayashi, Kayuo Shikano, Tom Kitashimi, Tsuyako, Kataoka, Noki Nazai and Yasuto Kato.

FIRST GOOD RAIN

After several light sprinkles during last week the first soaking rain of the season fell in this district Sunday night, depositing .62 of an inch in the Southern Pacific's gauge at the Niles depot, Agent Harvey Braun reports. Sufficient rain fell to put water in the Sullavan Underpass at the west end of town. The total for the season as of Monday morning stood at 1.06 inches, according to the railroad company's records. Autumn is definitely here, with leaves now falling from deciduous trees everywhere.

AT STATE MEET

CENTERVILLE — F. T. Dusterberry is attending the state convention of County Water Districts being held at El Centro this week. Mr. Dusterberry is state president of the association and will represent the Alameda County District. After the convention adjourns the delegates will be taken on a tour of Imperial County to view the irrigation system of that county.

WHOOSH! From the barren, spray-swept deck of a Polish destroyer "Somewhere in the Atlantic" a glistening torpedo launches toward the hull of a distant Axis ship. The Allied natives, composed of Polish, Dutch, French and Norwegian vessels which slipped away from the Nazis, are playing an important part in the struggle to maintain the vital supply routes between North America and the British Isles. This Polish ship, for example, was the first Allied vessel to locate the fleeing German battleship BISMARCK last May. She tailed the raider until heavier British units arrived and sank her.

A FIGHTING MAN SPEAKS

President Roosevelt's address Monday night to the Navy club in Washington, broadcast over the nation, was a fighting man's address. FDR took off the kid gloves with which he has been handling public policies the past several years, and came right to the point.

He excoriated the just-announced plan for an international nazi "church."

He said the oceans are made for the use of American ships, the navy had been ordered to shoot aggressor vessels on sight: "Dam the torpedoes, — full speed ahead!"

He bawled out a selfish but small group of labor leaders whose efforts are impeding the national defense effort and said if there was any more labor trouble he would ask the congress to pass immediate legislation outlawing labor strikes in defense plants during the period of war effort.

. . All of which "sits" well with the private citizens who do the work, pay the bills, — and do the fighting.

We've had enough of gentility: now let's have virility.

HITLER'S LAST GASP

On Sunday Agnostic Hitler broadcast to the German people his decree that the "church" was about to be re-established throughout the nazi nation

BUT! — The nazi swastika was to replace the Christian Cross.

God was banished by Hitler's own decree and Hitler is to be worshipped in God's place.

3. All Bibles were to be destroyed and removed from print. The nazis were to make "mein kampf" their bible.

4. All churches still remaining in Germany, both Catholic and Protestant are to be seized and used by the state. . .

Do Christian peoples everywhere need any futher proof that Hitler and his nazis are mad?

And how long will the Lord God suffer His name to be mocked in this manner by vermin who call themselves people?

Under the present circumstances it is America's Christian duty to make nazism, fascism and communism, and all other "isms" into "wasms." (Not original.)

"In the pitiless light of defense necessity, the distinction between things that are necessary and things that are 'just nice to have' will become inreasingly apparent." — N. F. McCoy, senior engineer, Public Roads administration.

THE LAND OF THE RISING SUN IS INVITING ECLIPSE

It is too much to hope that the Japanese, under their new war leader, General Tojo, will sheathe their swords and settle down.

In their hope of an "incident" to give them an excuse to make war, the military party has invented the charge of "encirclement."

Encirclement by whom? And where? The Americans and the Filipinos are very much at home in the Philippine Islands, and expect to stay there.

The British have fortified Singapore as a protection to the Red Sea and the east end of the Suez Canal. Has Singapore moved to Japan?

The Dutch in the East Indies are still in the East Indies. They have "kissed off" Japan's aggressive diplomats, and only want to be left lone.

Is there any danger of China invading Japan? One could wish there was.

Only Russia maintains an air fleet, submarines and troops on the Pacific shores of Siberia, because Japan's unwarranted aggressions make it imperative for Russia's self-defense . .

WHO then is threatening Japan with "encirclement"? The present Japanese leaders have invented psychological bugaboos until they themselves have come to believe their nation is threatened. (Their consciences must be hurting them for the harm they have done to China!)

* * * *

Does anybody know what a "co-prosperity sphere" is? Just another blind for trying to justify aggression. China wants none of it, nor Thailand, nor the Dutch East Indies, nor the British in the Malay Peninsula, nor the Filipino-Americans in the Philippines.

The big lesson the Japanese have to learn is that expansion can only be made permanent by negotiation and purchase; NOT by conquest. The Japanese have bled themselves white trying to "conuer" China. The Chinese have never been conquered by anybody, and never will be; nor the French, nor the Dutch, nor any other great independent nation. Great nations have often fallen under the heels of invaders but in the course of time they always throw off the shackles.

* * * *

The Japan Advertiser last week arrogantly "warned" foreign powers that "Japan is the sole great (?) power able TO INFLUENCE the western combatant states toward some beginning of understanding."

That would be funny if it were not so offensive. All that Japan has or knows of commere, industry, science, medicine, manufactures, education AND Christianity it has borrowed or aped from these same western "states."

A short 40 years ago Japan was just a tight little isle full of happy little brown men whom it was fun to visit because of the scenery and their quaint, un-worldly ideas.

The European powers have been dominant in world affairs for from 1,000 to 2,500 years each. The United States has been "the western hemisphere" for going on two centuries. That this sophomoric young nation should suggest "influencing" us is insolent. They are doing the sword-rattling, not we, nor England, nor Russia, nor China.

The Japanese Advertiser went on to say in the same issue: "If it is feasible to cooperate with world powers without . . . yielding any of our plans for "improvement" of the Far East, Japan is prepared for that too."

That reads like a grammar school boy trying to write a master's thesis. In other words: stand aside! give us all we want and we will 'co-operate'."

Who discovered, opened, developed and "improved" the Far East anyway, except the United States and the major European powers, but particularly the United States, starting with Admiral Perry in 1850, and continuing on through the Boxer Rebellion?

Now that the occident has opened up and developed the orient, Japan wants, and is going to try to dominate, ALL of it.

Leagued against the United States, England, Holland, Russia and China the Land of the Rising Sun is inviting an early eclipse.

Their present leaders, unhappidly, will never be brought to their senses short of the bombing of Japanese cities and the sinking of their vaunted navy.

After that: normal civilized relations and interchanges between nations can go ahead as usual again. Meantime there is this beast Hitler to be exterminated.

"When granddad was a boy they called appeasement just plain laziness." — Richfield Reporter.

FEE.' FI. FO, FUM

A little over a year ago Mussolini smelled the blood the nazis were spilling; he leaped on Hitler's band wagon and led with his prognathious chin, inviting John Bull to knock it off.

John Bull has — in Ethiopia, North Africa and the Mediterranean. Mussolini wishes he'd never heard of Adolf; and the Italian people would trade all the Gestapo there are for enough to eat.

It is definitely sad that the Japanese war party cannot see they are joining their good nation with a soon-to-be-lost cause. Their efforts will inevitably drag Japan down to ignominy and defeat. Japan has never really faced a first class power; let alone a combination of first class powers like the United States, England and Russia, with some support from both the Dutch and the Chinese.

The result of an aggressive war against the occidental powers will be disastrous to Japan, as her deposed Premier Konoye, and all other cool-headed, level-thinking, occidental-trained Japanese know.

If her leaders plunge her into this foolhardy venture, Japan, less than a year from now will be hissing the name of Tojo and his war-mongers.

So be it.

THE PANSY POLICY

One hopes Americans do not listen to the pleadings of that pansy, Mr. Cudahy, former ambassador to Belgium, who now publicly orates in favor of negotiating peace at once . . Shades of Chamberlain! wasn't one Munich enough? Cudahy croaks it will take an A. E. F. of 8,000,000 American men to defeat Hitler He forgets there are now other forces actively at work to defeat that serpent: notably winter in Russia, starvation and revolt everywhere. — There is no "perfect crime" and Adolf shot his load on October 2. Moscow still stands; and the nazi losses have been so terrific they do not know today just what they have left. There is an end to all things . . .

FRENCH SOLDIERS IN GERMAN UNIFORMS

It is shocking to read that a second contingent of 5,000 French volunteers has joined the nazis to fight Russia on the western front . . and these volunteers are wearing GERMAN UNIFORMS, according to War Correspondent John Eliott.

Can it be that, after 100 wars during the last thousand or more years, the French and Germans can finally get along together (with the Germans on top)?

No, it cannot be. Because any Frenchman who would disgrace France by wearing a German uniform to fight a nation affronted by Hitler, as France was last year affronted, is no true Frenchman.

But then . . these persons called nazis are not true Germans either. They are psychological introverts and have to be abolished as such.

Sure, it was the French under Napoleon who invaded Russia and captured Moscow early in the 1800s. But it didn't last. Now this man Hitler can't even capture Moscow — after four months of trying.

Where is your vaunted invincibility, Adolf?

* * * *

This writer has a feeling that if Moscow should fall it will also mean the fall of Stalin, now in sole command at Moscow; and a new government will spring up in Siberia, east of the Urals. So be it!

MEXICO IS COMING ALIVE

Mexico is at last waking up to its duty to resist nazi-ism, and that's a good thing.

Last week its official newspaper published a warning from Foreign Minister Ezequiel Padilla stating that the existence of a fifth column in Mexico was known, but that it was of little importance. Fifth columnists were warned to "watch their step" and to expect no leniency if caught in overt acts against Mexico's democratic administration.

That Padilla has grasped the fundamentals of a free country's principles, is expressed in his words, published in Mexico, as follows:

"Political movements founded on already discarded doctrines now disguised as modern and whose purposes are in effect to abolish all that the liberating force of men and people has achieved are doomed to failure.

"It could not be supposed, even resorting to the most exaggerated skepticism, that our people would allow themselves to be enrolled in a system which poisons the mind, corrupts morals, renders man a complete zero and undermines civilization to the point of seeking a return of the world to the times of violence and cruelty that form the shadiest chapters of history."

Never better said! Congratulations to Senor Padilla!

Modesty is a shining light; it prepares the mind to receive knowledge, and the heart for truth.

ATONEMENT — If the Bolshevists are wondering why this brute Hitler is assualting them without cause let them think back to late 1918 after the kaiser abdicated . .

Drunk with power they captured the old Russian czar, his pretty wife and innocent children, took them on a nice train from (then) St. Petersburg to the country where the royal family was lined up against a wall and all were murdered in cold blood. (Your scribe saw a moving picture of it many years ago and it made one writhe inwardly.)

For this crime against The Almighty the whole Russian (Soviet) nation is now making atonement in blood.

TIGHT—Believe it or not, space in this village "weakly" is becoming increasingly scarce . . Advertising has picked up somewhat; there's a deal of news to cover each week as the fall and winter activities of the hundred organizations within the Township have now got into full swing;

The lines of type have been set slightly closer together the past few issues in order to conserve space (and it makes a better looking newspaper, don't you think?), and there is not now always room enough for the usual small news picture on each page.

When some kind-hearted individual hands me an item to publish with the words "here's something to fill up the paper" it gives me a chuckle. — Lots of matters of public interest especially from county and other outside sources, cannot nowadays be published through lack of space.

Tough, huh?

POOR SURFACE OF OLD ENTRANCE ROAD CREATES HAZARD

Residents who live up the old Niles Canyon road are complaining of the condition of the surface of the road where it leaves the state highway by means of a right turn coming in from the south. The surface is said to be so full of chuckholes that the regular residents prefer to go up the new approach road and make a right turn into the line of approaching traffic using a narrow connecting road, in order to save the springs and the wheel alignment of their cars.

The accident hazard thus created, local residents say, could be readily removed if the state highway department would assign a crew to a few hours work filling the chuckholes in the surface of the old entrance highway.

County authorities say the latter is not their property; a state highway representative says it is not their property; but investigation of existing maps has determined that the short piece of road in question is state property, and could be put in good condition with but a few hours work.

Mrs. Edwin M. Teutonic military aggression, which with the aid of the Allies, we succeeded in doing.

This time we have to fight to destroy a diabolical ideaology and all its exponents. The next peace will be based on the Roosevelt-Churchill eight points. just as the last peace was built around Wilson's fourteen points.

Only we can show no mercy and no sense of national equality to the Germans in the next peace. In order that national identity may be restored so that nations can exist and function amicably in a world con-fraternity of nations, there can be no suzerain nation, no over-lord, no one master race.

— Nationalism Vital

Nationalism will be more vital than ever after this war; every nation wants and must have the right to be free. The nations must develop reciprocal relations for the world is becoming a smaller unit economically and all nations have to become decent members of that family unit.

America's high protective tariff of the years gone by made our depression the worst and the longest of any nation's. After this war we face a great tax burden; the project of vast reconstruction of war-damaged regions, along with centralization of control.

The master race now planned by Hitler EXCLUDES the Italians and the Japanese, the speaker pointed out sarcastically, thus emphasizing what everyone but the Italians and Japanese know, namely, that Hitler is only using these peoples as stepping stones to his own self-aggrandizement. to be cast off when they have served his purpose. The Nazi method is to divide, then loot, then destroy. which Hitler is striving to create

The "new European order" will include 250 million Germans . . and there are only 350 million persons in all of Europe, excluding Russia. So there will be no Europe as we have known it through the centuries. only the pan-Germany which Bismarck envisaged. For example, the nazis started the war with but 37 million dollars in gold; now they have 300 millions — all looted from conquered countries. The nazis are endeavoring to produce a society of animals. So civilized nations now have to "pan" Germany.

The day will come, Dr. Kerner predicted when the down-trodden peoples will bare-handed wrest the guns from their tormentors and turn the guns against them. The term "collaboration" as the nazis use it should rather be called "collapse."

— The Melting Pot

America is composed of all the blood of all the nations: thus we represent the summum-bonum of all that Europe is and has; with our riches and our resources the responsibility for the next peace rests with us; only we can make it permanent and we will be required to help to enforce its terms. This is where we fell down after the last peace.

Germany has been the "problem child" of the world family since Bismarck. Germany, like Japan today, needs a good spanking . . . This time both will probably get it.

On August 8, 1918 both Von Hindenburg and Ludendorff knew the last war was lost. With the Americans then fighting in the Argonne, at Chateau Thierry and in Belleau Woods the spirit of the Allies changed for the better. The triumphal counter-advance began and the German morale began to sag and crack. By November of 1918 it was all over.

The nazi morale is beginning to crack before the Russian defenses now. and General Mud is contributing heavily to the moral as well as the military, bogging-down process. Germany today has revived the same old triple alliance of world war days but with different partners now. Russia's fight has saved England. Had Hitler turned all-out against England instead of Russia last June it is probable England would be gasping its last by now.

The speaker spoke throughout in a sarcastic vein, but showed his academic acumen and definite grasp of the present world situation: most of its causes, and some of its cures.

NEWARK SPORTSMEN WIN SECOND GAME BY ONE RUN MARGIN

NEWARK — The Newark Sportsmens baseball club aided by Henry Nunes took a close game Sunday at the Newark Diamond from the Duarte and O'Neil club of Hayward by a score of 4 to 3. Hayward had two men on base in the ninth inning with one out. Pitcher Stewart cut loose with his Sunday pitches and fanned the last two batters, giving the Sportsmen the game by the narrowest of margins.

Newark's four runs were the result of a base on balls, a sacrifice, two hits in succession, and Tony Duarte's booming triple. Hayward scored two runs in the fifth inning on a basehit, a base on balls, and an infield clout.

Clarence Soito backstop for the Newark club turned in a nice job behind the dish. He held pitcher Stewart up in grand style. He made one of the four hits garnered by the Sportsmen.

This victory makes it two in a row for the Newark lads and places them in first place in the Southern division of the Alameda County winter league.

Deputy Sheriff Henry Vervais of Niles and their small daughters, Joan Marie and Merle Claire recently attended a birthday party given for Mrs. Albert E. Vervais at her home in Pleasanton.

Melvin Garcia and Miss Janice Roderick spent Saturday evening attending a Hallowe'en party in San Jose.

LEGION SPONSORS DANCE AS STATE GUARD BENEFIT

SONS SQUADRON SEATS NEW OFFICERS; LAVERNE FURTADO NEW CAPTAIN

A public dance to raise funds with which to purchase uniforms for the 30 odd men now drilling weekly in the Washington Township State Guard company was okayed at the last meeting of Washington Township Post, American Legion, held October 22 at Niles.

Past Commander Ray Peterson was made chairman of a committee to develop the project on a date to be set in November, assisted by Manuel Brazil and Walter; Waynflete, the only three Legion men now signed up with the Guard company. The Guardsmen themselves will sell the tickets, assisted by Legion members.

It is hoped that the use of a hall and an orchestra can both be obtained by donation, as a national defense gesture in order that all proceeds can be devoted to purchasing uniforms at a cost of about $11 each (including Monterey jackets) for the men already signed up and drilling.

The Township Register has offered to donate the window cards, tickets and publicity, aided by other newspapers of the Township.

Other business transacted included Commander Sam Scott appointing Comrade J. V. Goold as chairman of the Boys State committee assisted by Comrades John E. Dutra and Arthur Cotton for the coming year.

— Armistice Dinner

It was voted to hold the usual dinner for members on Armistice night, Tuesday, November 11, to be followed by a business meeting and entertainment with Comrade George Smith in charge of the latter. The regular meeting on Wednesday night, November 12 will therefore be omitted.

A discussion was held regarding the Post giving a joint dinner and evening of entertainment for the Women's Auxiliary, the Sons Squadron and the Junior Auxiliary in observance of some holiday this winter preferably New Year's Eve. No action was taken.

Legion men were asked to wear their caps and ties and co-sponsor a public patriotic meeting with the evening high school at the auditorium on Monday night, November 10 when Professor Hildebrandt from the state university will be guest of honor at a patriotic rally.

Joseph Furtado, new chairman of the Sons Squadron committee reported they are giving a benefit turkey whist on Friday evening, November 14 with a turkey awarded to every three tables. The public is invited. The Sons decided to meet every fourth Wednesday in order to join their Dads in the Post's second meeting each month which is supposed to be a social meeting. The Dads can bring their sons to meetings with them, thus saving making an extra trip each month.

It was voted unanimously that the Post make its usual annual donation to the Township's Boy Scout campaign.

— Standards Too High

Waynflete explained the Navy's urgent recruiting crusade which begins this month in Washington Township as well as throughout the nation. When he explained the Navy was still a volunteer service, did not draft men, and only accepted one out of every five applicants, a member commented that the Navy could secure more of the men now needed if it reduced its recruiting requirements in some particulars.

At the conclusion of the Post's regular meeting Commander Scott invited in the Sons Squadron and formally installed the following officers for the new year:

Captain, LaVerne Furtado; First Lieutenant, Edward Silva; Second Lieutenant, Barney Bragg; Sergeant-at-arms, Wesley Hammond; Chaplain, Harold Houghton, Adjutant George Smith, Jr.; Historian Henry Mariani and Past Captain, Jackie Dutra.

Following adjournment light refreshments were enjoyed in the kitchen prepared by Comrades Marston Dassel and Fred Rieder.

CLASS ELECTS

IRVINGTON — The eighth graders of the Irvington grammar school recently elected Bob Merrill as president; Nelda Hammond, vice-president; Ethel Borge, treasurer; Georgia Cooper, secretary and Frank Hernandez, sergeant-at-arms.

1941-42 SALABLE PERCENTAGE OF WALNUTS FIXED

SAN FRANCISCO — The Department of Agriculture announced today that the 1941-42 salable percentage of walnuts under the Federal marketing agreement program, operating in California, Oregon, and Washington, has been fixed at 65 per cent of the merchantable crop, while the surplus percentage has been established at 35 per cent.

Salable and surplus percentages are established each year under the marketing agreement program regulating the handling of walnuts in interstate commerce. The salable percentage represents that portion of the year's total supply which can be sold in domestic trade channels as unshelled walnuts. The surplus percentage is that part of the total supply which must be disposed of in shelling or export channels. These percentages are fixed by the Secretary of Agriculture on recommendation of the Control Board administering the program.

The percentages established will provide for normal domestic trade channels a salable quantity of unshelled walnuts for 1941-42 amounting to approximately 598,000 bags (100-pound) and a surplus quantity of about 322,000 bags for disposal in shelling or export channels. To the salable quantity should be added a carryover of about 24,000 bags, making available for 1941-42 a total salable supply of 622,000 bags.

COLLISION BETWEEN TRUCK, CAR FLOODS ALVARADO STREET

ALVARADO—A crash occurred in the business district here Saturday when Dr. John F. Bettencourt's car collided with a truck driven by Fred Noia, 47 of Newark. The truck sheared off and snapped a fire hydrant which flooded the street.

Dr. Bettencourt, 41, his wife, 35, and her father, Dominic De Kidos, 71 were taken to the Hayward hospital where they were treated for abrasions, lacerations and shock. Mrs. Bettencourt sustained chest injuries. The doctor's car caromed into a pole nearby.

The truck driver was not injured.
